### FOR THE GYPSY IN YOUR SOUL- INTRODUCING THE GITANE DG-250M!

March 18, 2004/San Francisco, CA- With one foot firmly in the past, Saga Musical Instruments reintroduces the Gitane DG-250M Petite Bouche Jazz Guitar.

The DG-250M is an authentic copy of an original 1941 Selmer Jazz Model guitar, produced in Paris during the early stages of WW II. Features include the uniquely designed solid peghead, a scale length of 26 5/8 inches, the characteristic "*petite bouche*" soundhole, and the back, sides and neck are of naturally finished and beautifully figured, birds-eye maple. Alternately, a top of select, solid spruce, bound in the finest of ebonies - completes this amazing jazz machine.

Every feature adds to the percussive impact and dark tone associated with the legendary instruments of that era! So turn back the clock and swing with the Le Quatre de Paris...and the Gitane DG-250M.
