J. Navarro Redefines Traditional Spanish Inspired Classics!

Saga introduces the new NC-40 J. Navarro Classical Guitar...the first model from a new line of mid-level, high-quality, Spanish-Inspired guitars that blend traditional materials and workmanship all at a price point that anyone can afford.

Manufactured using a solid spruce top and mahogany for the back, sides and neck, the NC-40 is an instrument that plays easy and provides a beautiful, sonorous tone now and even gets better with age. Taking an even closer look and you will see that we also spared no expense on the details including the tasteful use of matching rosewood for the fingerboard and bridge, accurate gold-plated engraved tuners, and body binding. With combined features like this, new NC-40 by J. Navarro will redefine Spanish Classical Guitar tradition and will be equally at home in the hands of any advancing student or the professional player wanting to get more for their money.
